About

A creative-thinking First Class Graduate Urban Design student, who is proficient in SketchUp, Adobe Suite, and Urban Design theory, skills developed during my time at university.

Currently seeking a part-time role as a Graduate Urban Designer whilst I start my Master's in Urban Design.

Education

BA Urban Design, Planning and Development

Oxford Brookes University

2019 - 2022

My time on this course has enabled me to gain a strong understanding of urban design and the planning industry, through a mixture of live projects and theoretical modules. This has allowed me to develop a range of skills, such as 3D Modelling, hand drawing, graphics production on Adobe Photoshop and Illustrator, and report and Design & Access Statement production.

Key Modules:

- Cities in Historical Context;
- Architecture & Open Space Design
- Development Processes and Site Delivery
- Urban Regeneration and Conservation
- Urban Design and Masterplanning
- Environmental Decision Making
- Global City Design
- Strategic Planning and Policy

The John Warner School, Hoddesdon

2012 - 2019

A-Levels: Design & Technology (C), Business Studies (Distinction*), Geography (A), Finance (A)

GCSE's: English (8), Maths (5), 7 A*-B grades.

Skills

Many of these skills have been developed at university, working to tight deadlines, producing detailed site proposals using a range of software and tools, working as both an individual, and within groups.

Technical:

SketchUp/Rendering	<div><div></div></div>
Adobe Suite	<div><div></div></div>
ArcGIS	<div><div></div></div>
AutoCAD	<div><div></div></div>
Sketching	<div><div></div></div>
Masterplans	<div><div></div></div>
Reports and Design & Access Statements	<div><div></div></div>

Professional:

Meeting targets	<div><div></div></div>
Communication	<div><div></div></div>
Interpersonal Skills	<div><div></div></div>
Team working	<div><div></div></div>
Patient and hard-working	<div><div></div></div>
Presentation	<div><div></div></div>
Online working	<div><div></div></div>

Employment

Freelance Urban Designer

2022 - Present

Acting as a Freelance Urban Designer on behalf of Built Form Design, I am currently working as part of a team to deliver a planning application for over six hundred homes on brownfield land in Bedfordshire. Working on a project like this has allowed me to progress my skills in AutoCAD, using the software to test proving layouts and set out a masterplan.

Customer Experience Assistant, Sainsbury's

2019 - 2021

As a customer-facing role, I faced a range of tasks from people management, product and service promotion and working within a team to ensure the smooth running of checkout areas. I have gained invaluable time management, organisation, and people skills, which can be replicated in the Urban Design industry.

Interests

Within Urban Design, I am passionate about delivering places with real benefits, for the community, the environment, and to support healthy lifestyles. For me, these are the drivers for working to deliver a better built environment.

Outside of work, I am active, enjoying road and track cycling, exploring the outdoors, and general fitness.

Achievements

RTPI Town Planning Day Award

I was tasked to develop an area of my town, considering the UN Sustainability Goals. I made use of my town's derelict police station and developed it into a vibrant, sustainable, community, with an energy hub, renewable technologies and a youth centre.

Student National Urban Design Award 2022 Longlist

I was to design a place that was people-friendly, sustainable and future-proof. My submission, Oxpens Healthy Neighbourhood, encompassed these aims, with flood-proofing, a strong green and blue network, and balanced land-uses. This entry reached longlist of just 10 participants.
